

POLITICA AZIENDALE

Founded in 2010, **ORINGONE S.r.l.** has been operating for a number of years in the rubber sector as a manufacturer of large diameter O-rings, and has consolidated its know-how by producing out-of standard O-rings. The company has, over the years, obtained recognition from many customers in the sector, up to developing partnerships with major companies around the world. With regards to the application field "Production of large diameter o-rings" at its plant in Grumello del Monte, **ORINGONE S.r.l.** implements a policy for **quality, environment, energy and OSH** aimed at:

- Guarantee constant and continuous client satisfaction;
- Understand how the market sector develops and always remain at the forefront;
- Be a company that brings innovation to their market sector;
- Carry out continuous improvements in product quality;
- Remember that the success of customers runs hand in hand to that of the company;
- Comply with the relevant laws, regulations and other commitments of the company with regards to Environment, Energy and Health and Safety at Work;
- Prevent pollution, reduce waste and use of resources, encourage the design and purchase of energy-efficient products and services in order to improve energy performance.
- Define and achieve goals of continuous improvement of its performance;
- Evaluate the environmental aspects of production activities and adopt management procedures to minimize any significant negative environmental impact.

To implement these objectives, **ORINGONE S.r.l.** undertakes to:

- Implement and continuously improve an integrated Quality, Environment, Energy and Safety Management System;
- Design, develop and manage activities and processes, evaluating and proactively possible impacts in advance, identifying as soon as possible the best available solutions to reduce or eliminate any consequence on product quality, the environment and energy performance with special focus on the safety of its employees
- Do everything in its power to reduce and/or eliminate the risks and dangers to the health of workers, also the cases of accidents.
- Carry out the review of the Management System and of this same policy, as a tool of continuous improvement and in particular improving operational processes, measuring performance and relating them to the objectives set in order to correct any deviations;

- Develop training and awareness of all those who operate under its control to promote and encourage behaviour in line with this Policy;
- Guarantee adequate resources to achieve the objectives;

This policy is based on the awareness that the maximum commitment and participation of all employees of **ORINGONE S.r.l.** is required. for its implementation in a context of continuous improvement, therefore the same is communicated within the organization for the purpose of its understanding and application and is made available to all external interested parties. The Management, aware of the above, undertakes to continuously provide its economic contribution and firm support for the principles set out.
